

*Discover the passion of creating porcelain
produced since 1831*

Porcelain FACTORY Krzysztof / Kristoff ALMOST 200 YEARS

The company was established in 1831 by Carl Krister
and has a long tradition when it comes to producing
porcelain.

From the very beginning the production facility
has been located in Wałbrzych, Lower Silesia.

At the beginning of the 20th century the company
transformed into a joint-stock company which was
incorporated into the Bavarian cartel along with the
porcelain company **Philip Rosenthal**.

The factory has been producing continuously since 1831,
from KPM signatures, through Wawel to the current
Krzysztof / Kristoff.

Krzyszof - European Porcelain

For us as a manufacturer the highest quality has been our primary goal since 1831.

We are one of the few companies that produce the traditional, hard porcelain and we use only the best european materials. We produce goods for many exclusive well-known brands.

Quality is of the utmost importance for us.

Our management system is very flexible, allowing for production of large quantities and fulfilling special requests.

New technologies are important to us (3D designing, automated production and modern production techniques) but we do not forget about our legacy. It is especially visible on some of our hand-made decorations which makes them unique and special.
